Pneumonia is prevalent throughout the county.

On Monday night Ward Farrar had a calf frozen to death.

We understand that there are several cases of small-pox in De Soto.

Everybody has the vaccine fever, and the general cry is, "Oh! my arm."

For frames of all kinds and sizes, go to Thompson & Chambers' Gallery.

Old Winter is here in fact. Monday night we were visited by quite a fall of snow.

The game law for the killing of deer expired last Saturday. Take warning all ye hunters!

The Potosi Independent comes out in a new dress and enlarged form. We are glad to see this evidence of the Independent's prosperity, and hope the future may bring it the patronage its ability and enterprise deserve.

We return thanks to Mr. Judd Chambers for a large photo of the basket of flowers which was presented by Mr. W. H. Thompson to the Academy of Music, and voted off at the late opening ball. It is a fine photo, and shows the touches of a skilled artist.

Please do not turn the paper to read the rest.

It is a fine photo, and shows the touches of a skilled artist.

We call the attention of our readers to the advertisement of J. Monroe Taylor. This house has been established nearly 40 years, and their goods are celebrated for purity and strength. We would recommend a trial of their Gold Medal brands to all who desire superior cookery.

The Saturday Evening Assembly of the 14th was well attended. At 8 o'clock the room was filled with Iron County boys and girls. Dancing was indulged in until 11:30, when the Orchestra struck up "Sweet Home," and all wound their way in that direction.

It has been ordered by the School Board that all the scholars attending the Iron County school be vaccinated. A step in the right direction. The gentlemen composing the Board evidently believe in the old proverb that "an ounce of prevention is better than a pound of cure."

The members of the Y. L. D. C. are making preparations to give an entertainment about the 15th of February next. The young ladies have asked the following gentlemen to assist in their entertainment: Messrs. F. Scoville, J. T. Ake and G. Loeck. With such good material it cannot fail to be a success.

Ed. Register—

Please extend our thanks to your correspondent who sends notes of the Clinton Society. With these aids some of us may try to cultivate the acquaintance of the muse of glory and history. We should be glad to receive full reports.

What one History of England would the Society recommend as the best?

ANNAPOLIS, Jan. 11. E. F. M.

It is said to chronicle the death of friends, but such is God's will. The subject of this obituary is Mr. Luther Hill, who died of pneumonia, Thursday, Jan. 12th, at Bonne Terre. Mr. Hill was a young man of more than ordinary ability whose future promised much. May the God that nurtured and protected him in life remember with his choicest blessings his young and lovely wife, his mother and brotherless sisters. To the bereaved and grief-stricken family we tender our heartfelt sympathy.

IRONTON, Mo., Jan. 15, 1882.

Ed. Register—

I thought I would scratch you a few lines. If you can find a place for them in the columns of your paper. Some of the Iron County ladies thought enough of the old wood-sawyer to make him a Christmas present; and he was proud to know that they thought something of him, if nobody else did. I find people pretty stylish in our town, but the old wood-sawyer can't put on much style, as he belongs to the lumber class. Excuse this writing, and I will close.

SCIENTIFIC WOOD-SAWYER.

The committee who were engaged in raising a fund for the poor desire to say to those who wish to know how they have disposed of those funds, that the net proceeds of the Festival were \$33.70, which have been expended in the following manner:

For provisions and clothing (at Lopez's) \$19.15
" (Fairchild's) 9.60
For wood 5.35
For flour and meal (at the mill) 5.90
In cash 6.10
Incidental expenses 60

Total \$41.70

They have remaining on hand \$12.00.

They have decided to postpone the Charity Ball until after Lent, as preparations are being made by the Young Ladies' Dramatic Club for an entertainment for the same purpose, which will come off about the middle of February.

Come and Settle Up.

All persons who have accounts with the undersigned are notified to come forward without delay and "square up," either with cash or by note. Another year is now before us, and we desire to have all accounts connected with the old year settled up. "Short settlements make long friends, and we trust all persons having business relations with us will agree that the best way is to start in 1882 with balanced books.

Do not buy a sewing machine until you have seen the Light-Running Domestic. It is in fact the strongest, easiest running and acknowledged the best sewing machine in the world. It is highly ornamented with Bent woodwork which gives it a beautiful appearance, and does not cost you any more than any other A. No. 1 sewing machine. Will refer to Mrs. H. M. Bradley, Mrs. L. Schultz, Mrs. F. Scoville, Mrs. G. B. Nall, Mrs. J. T. Ake, Mrs. Dr. Prince, Mrs. W. H. Delano, Miss Stella Huff, Mrs. P. R. Jaquith, Miss L. Richter, Miss S. Austin, Mrs. W. Steffen, Dr. Kling, and a large number of others. By the way, Mr. Editor, your better-half having had a Domestic now over a year, would you please state how she likes the same? and oblige.

H. DAVIS, Agent for Domestic S. M. Co., [She says it's a daisy.—Ed.] Ironton, Mo.

DIED.—At Bonne Terre, Mo., Jan. 12th, 1882, at 9 o'clock P. M., LUTHER HILL, after a painful illness of five days of pneumonia, aged 24 years, 1 month, and 23 days.

"Farewell, dear brother—thou art gone to thy rest, Where the good shall meet in the land of the blest. We have loved thee in life; we will love thee in death."

And cherish thy virtues while God gives us breath. "Yes, thy virtues shall live, and thy nobleness of mind shall be cherished forever in memory's shrine. Farewell, dear Luther, we will meet thee above. To dwell in the world of happiness and love."

V. T.

DIED.—At his residence in Ironton, Mo., January, 14th, 1882, FERDINAND SCHMITZ, aged about 67 years.

Mr. Schmitz a native of Germany, was an old resident of this county, having just come to Pilot Knob before the war. He engaged in merchandising there, and for a number of years was postmaster. About eight years ago he moved to Ironton, since which time he was engaged in various "trades," and he the time of his death was proprietor of the Ironton House, which he had successfully conducted for three years. He leaves a widow and five children to mourn his decease. His funeral was largely attended, and his body was interred in the Pilot Knob Cemetery.

We Lead—Never Follow.

Thompson and Chambers have remodelled and changed the Watsons Gallery into one of the best arranged studios in the southern part of Missouri, and all they ask of the citizens of this and surrounding vicinities, is for them to call and examine their work and prices and judge for themselves. All the work they have on exhibition is work done by themselves and not work borrowed or bought from other galleries to make a display to deceive the public. Don't forget the place—over the U. S. Land Office.

HARVEY AND THE BLOOD.—Harvey discovered the circulation of the blood, and, upon announcing the fact, was ridiculed and laughed at. Food makes blood, and blood makes beauty. Improper digestion of food necessarily produces bad blood, a full stomach, acidity, heartburn, sick headache and other disagreeable symptoms. A closely confined life leads to indigestion, constipation, biliousness, loss of appetite. You do not want pills, but you need a few doses of that sparkling purgative known as Bailey's SALINE APERTMENT. It aids digestion, cleanses the stomach, cools the brain and unloads the bowels.

BRO. AKE of the Iron County Register requests over the completion of their Academy of Music, also over the fact that he has a comfortable home and is out of debt. We congratulate him and the other good people of Ironton.—[Ed.]

Father is Getting Well.

My daughter says, "How much better father is since he used my Bitter's!" He is getting well after his long suffering from a disease declared incurable. We are so glad that he used our Bitter's.—A lady of Rochester, N. Y.

The Iron County Register, creating its readers with a happy New Year, tells them that its editor is "out of the house of bondage, a free man, not owing a dollar, and has a few dimes left." Bro. Ake has told since 1868 under a mortgage property, and thanks the Giver of all good that he is out of debt, and the possessor of one of the best, a printed newspaper offices outside of the large cities, a sweet wife and family and a comfortable little home. We are glad he is so happily situated, and extend to him our hearty congratulations. The Iron County Register is one of the most ably edited papers in Southeast Missouri.—[Ed.]

LET'S DANDERLION TONIC is not "Whisky Bitters" or a "Fancy Drink," that may lead the user on to drunkenness and ruin, but it is a true, reliable medicine which has been used for the past fifteen years, and has been prescribed and used by many leading physicians.

The Light-Running Domestic is acknowledged to be the best Sewing Machine in the world. Buy one for your family for a present, and you will never regret it. The machine is beautiful, ornamental and durable. The attachments are all finely finished and heavy list-d.

THE SUN.
NEW YORK, 1882.
The Sun for 1883 will make its fifteenth annual revolution under the present management, shining, as always, for big and little, man and graven, contented and unhappy, Republican and Democratic, depraved and virtuous, intelligent and obtuse. The Sun's light is for mankind and womanhood of every sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.
The Sun of 1883 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of The Sun. It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modified and bettered by the force of the Sun's example.
The Sun of 1883 will be the same unapostrophed, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.
We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Print House Square is not the first consideration with The Sun. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.
In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. We have no the only secret of The Sun's political course.
The Weekly Sun gathers into eight pages the best material of the daily issues. An Agricultural Department of unusual interest, market report, and a liberal proportion of literary, scientific, and domestic intelligence complete The Weekly Sun, and make it the best newspaper for the farmer's household ever printed.
Who does not know and like The Sunday Sun, each number of which is a Goldenrod of the week? The Sunday Sun, the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book—big or little.
If our idea of what a newspaper should be pleases you, send for The Sun.
Our terms are as follows:
For the daily Sun, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or \$6.50 a year; including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7.70 a year, postage paid.
The Sunday edition of The Sun is also furnished separately at \$1.20 a year, postage paid.
The price of The Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.
Address: I. W. ENGLAND, Publisher of The Sun, New York City.
1808-1882.
THE MISSOURI REPUBLICAN PROSPECTUS.
This paper, usually called the St. Louis Republican, published in the great West since 1838, was established in 1838, whilst the new flourishing State of Missouri was a small territory and St. Louis a mere outpost, the headquarters of a few Government officers and Indian traders. The Republican has steadily increased from a diminutive sheet, printed weekly and containing but little more than local and unimportant events, to a representative American journal, commanding large influence in the front rank of the great newspapers of the world. Its history is the history of the West and South in all enterprises, and in all the material, political and social progress of the country. It is the exponent of the views of that class of citizens who seek to have the Government conducted upon Democratic, popular and conservative principles, and in the best interest of the organ of the most intelligent and thoughtful minds of the extensive region in which it circulates. It reaches a great majority of post-offices throughout Missouri, Illinois, Kansas, Iowa and Arkansas, and is disseminated more or less largely in every other State and Territory, besides going to all important points in Europe. Its various editions reach over one hundred thousand homes, counting the numerous stores and offices; this fact growing out of a steady and uniform growth, as population has increased and mail facilities expanded. Its readers are the "bone and sinew" of the country, well informed and influential.
The Republican, from the care with which it is edited and conducted, the enterprise manifested in the collection of news from all quarters, its consistency in its advocacy of principles bearing upon the prosperity and well being of the people, has built up a circulation not to be estimated merely by its numerical greatness.
The Republican is published by men chiefly who have grown up from boyhood in the business, and have made the printing of a newspaper the study of their lives. It is practically impossible that any event of real importance could occur anywhere on the civilized earth and not be published in the Republican before the rising of the next sun. With the means and the purpose to publish the news, readers of its columns will have no reason to look further for a history of the times.
To those engaged in commerce, and indeed all who buy or sell, or are concerned in what is bought and sold, the Republican will supply all necessary and desirable information so far as it can be found in the most complete and careful commercial reports from every important trade centre and stock market in the world.
These are some of the features of a concern that is known throughout the West and South as the "Old Reliable."
